Katie Gilbert's Benefit. The grand complimentary testimonial tendered Miss Katle Gilbert by the citizens young in years, has reached so high a niche n the dramatic column. Chas. Sudden Disappearance of a Sheriff. The people of the good county of Sumner are troubled and mystified in consequence of the unaccountable absence, for wo weeks past, of their sheriff, Mr. Wm. A. Lovell. The county court at their last meeting elected John Clendening to supply the vacancy caused by this disappearance. The Examiner says that the last known at Gallatin of Mr. Lovell's whereabouts was on Wednesday before the election of his successor, at which time he was in Nashville, saying he was there to settle with the clerk of the supreme court, which, it appears, he did not do. His family and other relatives state that they know nothing of his whereabouts. The Examiner says: "Without any wish to do injustice to an absent, and possibly an innocent, man, it should be stated that there are charges of Mr. Lovell being largely behind pecunarily as an officer. Of this we know nothing, but take it for granted that an investigation will settle this point. It should also be stated that no apprehensions are felt by his friends that any casuality has befalled him, but that he has voluntarily absented him

Melancholy Explanation of the Mys-

Two weeks ago a worthy young man named Ed Rooney, who had come lately from Cincinnati to reside in Nashville, was attacked with small-pox and sent to County Asylum for medical treatment. In the delirum consequent upon the malady with which he was afflicted, Mr. Rooney escaped at night from the asylum, and from that time until yesterday nothing could be heard of his fate or whereabouts, although the most diligent search has been made un der the direction of the wife and brother of the unfortunate man, who had been sumimprovements lately made there. The moned here from Ohio by intell-character of the gentlemen is a sufficient igence of the misfortune which had befallen the husband and brother. Music at the Fair.

To the Editors of the Union and American Now, as our Fair is about to close, I take the liberty to make the following inquiry. In furnishing music for the Fair, why did not the directors employ one of our city bands, instead of the Post Band? I am sure that they could have given us as good, if not better, music than we have had there, which was indeed very slack, and not much to speak of. I have nothing to say against the Post Band—they are very good "in their own clothes;" but I think that such an institution as the Fair, which is supported by the citizens, should patronize a city band. As their members are all mechanics, of course they can live independent of its patronage; but, after spending time and money in raising and perfecting themselves as mu-sicians, they should be supported. In any city you go to, you will find on all occasion that no other but citizens' bands are employed, and they take a pride in having and The Choral Society.

Supporting one, and I think that Nashville could justly take the same pride. The directors of the Columbia Fair employed our Rock City Band, and the President publicly thanked them for their untiring efforts and gentlemanly behavior while there. Hoping that these few remarks will be considered "A CITIZEN." in future, I am.

The step was wholly unexpected and as a means of enabling the committee of seventy to ob-tain other proof is regarded as the most promising occurrence that has yet transpired. The bill selected for the occasion is one of rare merit, and embraces the two sterling plays in which Miss Katie stands pre-eminent. It is seldom that the theartre goers of Nashville have a chance to witness as talented a company as that of the Gilbert Sisters, and our memory falls to revert to the time when any troupe has appeared here led by so brilliant, bewitching and beautiful a star as "our Katie Gilbert." The late County Auditor, Watson, is supposed to be the who altered Keyser vouchers. The Davidson & Co. were also altered. The firm is said to have received but a small pro-

portion of the amounts charged to them.

An opinion is gaining ground that Judge
Barnard will dismiss the present grand jury. Unless this is done, the proceedings against the perpetrators of frauds will result in noth-ing. Besides the fact that the grand jury is packed, one of the officials upon whom devolved the prosecution suits is under Tammany influence. Anxious Seekers on the Mourner's Evidence of the most startling character is accumulating, but the Committee of Seventy find difficulties in their way. The

parties giving evidence expect it will cost them their salaries, and desire to be provided with other situations. This the cor besitate to do. A Patriotic Paper. The Herald says it will advance the city treasury one hundred thousand dollars to wards carrying on the government until taxes come in.

Tweed Going to Run His Machine with His Own Money.

Tweed says there is a decrepancy between the statement of Comptroller Green as to the financial condition of the department of works and his own; that there shall be no stoppage in the works department; he in-tends to take care of his department, and will individually pay his men rather than see them suffer. He does not regard the Rochester Convention as either a triumph or a defeat for Tammany. He supports the ticket and thinks the city trouble an issue in itself.

This morning Julius Steinman, a lager beer shop keeper, murdered his wife by crushing her bead with a club and smoothing iron and cutting her throat with a sheath knife. He then hanged lfimself with a clothes line at the shop door. The bodies of both were cold when discovered. Tammany Broken Forever.

The World says, in regard to the repre-centation from New York to the Democratic Convention, that hereafter the Convention will know nothing of Tammany or anti-Tammany, and deal entirely with the separate Assembly districts. Not only Tammany, but all successors of Tammany, and all similar oligarchial organizations are thus abolished H. G. on the Situation.

Horace Greeley, in review of the situation, states: That Oakly Hall has embezzled the public money and converted it to his own use is not yet proved. Still for signudulent and false he thinks he ought to resign. I have seen no evidence that Peter B. Sweeny is a public plunderer. Ditto, rather more so, as to Judge Hilton. My judgment as to Tweed is very different. 1 and 7 o'clock, by Rev. J. E. Wheeler.

The Board of Steamboat Inspectors to day discussed the relative merits of iron and steel for boilers. Certain parties who are building steel boilers want an allowance for higher pressure than now prescribed for iron boilers. The subject was referred to a sub-committee. The Board also considered the application of persons who want to carry petroleum on passenger vessels, and lecision is, that where there is no other practicable way, such freight can be arried on the guards of the fore-deck.

The Progress of Reform. Reform delegates to the Democratic State Covention issue an address to the Democratic voters of the city. They rehearse the proceedings of the late Convention at Rochester, claiming that they obtained the success over Tammany there by the adoption of the resolution by which the pres tige of the "regularity" of Tammany Hall is destroyed and the independent assembly districts take its place, and urge all honest Democrats to nominate of the highest character for intelligence and integrity to the legislature, having no doubts of their ability to elect them by an over whelming majority, thus assuring utter and speedy downfall of the Tammany ring. Then some portion of the stolen mil; lions may be recovered. They close by saying: Let us pledge ourselves to vindicate and redeem the honor of the Democratic party, and use every means through the pallot box and courts to bring criminals who disgrace our party to condign punishment."

The address is signed by the whole reform delegation.
